About This Game

QuiVr Vanguard gives you a bite sized fantasy archery experience built from the ground up for VR. A map loved by many of the VR Early Adopters, bow mechanics fine tuned over years of development, and an ever expanding pool of items and enemies make QuiVr Vanguard a fantastic intro to VR or a fun way to kill some time.

Features

- Best in class bow and arrow physics, battle tested in QuiVr
- Drop-in/Drop-out multiplayer
- Global, weekly leaderboards
- Multiple environment skins
- Varied subset of enemies found in QuiVr
- Random item rewards as you play

OS: Windows 7

Processor: Intel i5-4590 3.3 GHz

Memory: 6 GB RAM

Graphics: NVidia GTX 970

DirectX: Version 11

Storage: 4 GB available space

English

Have only just had a quick game so far but I really like it. Nice format where it boils down to tower defence. Make sure you change the bow aiming because the default aiming comes with an offset which feels really unnatural.

I like the upgrades too that pop up after a few waves, adds some cool effects to your gear.
This will definitely be an awesome co-op experience if you can round up some people to play.
